

'Bodger' turns Heathen

Saturday's league match

WITH their FA Trophy game safely behind them, Wycombe Wanderers still cannot afford to relax when they entertain Kingstonian at Loakes Park in an Isthmian league encounter tomorrow.

The Blues badly need points to boost their position but though their visitors have been having a thin time, they have recently shown more bite and competitiveness in their fight against relegation.

Wanderers will be at home again on Tuesday night — with the task of ousting near neighbours and old rivals Maidenhead out of the Berks and Bucks Cup competition.

Blyth result

RESULT of Monday night's Blyth Spartans and Goole Town Trophy replay will be on the Wycombe Wanderers information line late Monday. Those interested are asked not to telephone Blyth for the result.

THE MOST colourful figure in local football over the last decade and more, Tony 'Bodger' Horseman may soon be back in action locally.

'Bodger', the longest serving Wycombe Wanderer, left the club to join Tring Town, the Division II Isthmian League side. But he soon left Pendley and recently signed for Flackwell Heath, where he joins ex-colleagues at Loakes Park, Dave Thomas, 'keeper Dave Wright and defender Ian Rundle, having his first spell at managership.

'Bodger's' first game may well be against old rivals from the Wanderers days, Slough Town.

They come to Wilkes Park tomorrow week in the Berks and Bucks Senior Cup, the biggest match the Heathens, now well-placed in the Hellenic League, have ever staged in their 75 years.

'Bodger' has been in the Flackwell squad twice so far, but both matches have been called off.

Tomorrow their fixture has to give way to the reserves, who have a home Berks and Bucks Intermediate Cup-tie.

Horseman has kept in training and is practically certain to be in the squad against Slough. Flackwell hope that he will get them back on the goal standard. They haven't been getting as many as they should of late.
